

MEMORANDUM

TO: Steering Committee

FROM: Committee on Academic Programs (CAP)

RE: Final Recommendation on Proposed five-year program in Urban Education

DATE: November 16, 2017

Background and Charge:

The Department of Educational Administration and Secondary Education has developed the attached proposal for a new five-year program in Urban Education. This proposal has been unanimously endorsed by the School of Education, TEC, and GPC. The Departments of English, History, and Mathematics and Statistics were also consulted. Steering charged CAP with considering whether all units that might be affected by the proposal have been consulted and whether the proposal is consistent with the College's mission.

Final Recommendation:

After review of the proposal and approval emails, as well as extensive discussion, CAP decided that a more clear endorsement from the School of Science was needed. After an emailed endorsement from Dean Osborne, (see below) CAP determined that all affected units have been consulted and that the new program is consistent with the College's mission. CAP did not feel that further testimony was necessary and unanimously approved the proposed five-year program in Urban Education.

Hi Jeff,

CAP is currently reviewing the proposed 5 year urban education program, and we feel that we need more clear confirmation from you that you approve the proposed program moving forward. I'm attaching the proposal (and your previous email, which seemed a little vague to us). If you could please get back to me about this, I would appreciate it.

Thanks,
Ashley Borders
Chair of CAP

Hi Ashley,

I apologize for the delay with return correspondence. Yes, I approve this.

Best regards,
Jeff
