MEMORANDUM

TO: Steering Committee
FROM: Committee on Academic Programs (CAP)
RE: Final Recommendation on Proposed MBA program
DATE: December 13, 2017

Background and Charge:
The School of Business has developed the attached proposal for a new degree program, a Masters in Business Administration. This proposal has been endorsed by the Graduate Studies Council and the school curriculum committee. Steering charged CAP with considering whether all units that might be affected by the proposal have been consulted and whether the proposal is consistent with the College's mission.

Final Recommendation:
After review of the proposal and discussion with William Keep (Dean of the Business School), CAP determined that all affected units have been consulted and that the new program is consistent with the College's mission. CAP did not feel that further testimony was necessary and unanimously approved the proposed MBA program.

5 year urban education program
