

MEMORANDUM

TO: Steering Committee

FROM: Committee on Academic Programs (CAP)

RE: Final Recommendation on Proposed BA in Biology

DATE: February 28, 2018

Background and Charge:

The Department of Biology has developed a proposal for a new Bachelor of Arts program. This proposal has been endorsed by the curriculum committee in the School of Science. Steering charged CAP with considering whether all units that might be affected by the proposal have been consulted and whether the proposal is consistent with the College's mission.

Final Recommendation:

After review and discussion of the proposal, CAP determined that all affected units have been consulted and that the new degree is consistent with the College's mission. CAP did not feel that further testimony was necessary and unanimously approved the proposed BA in Biology.
