

Committee on Student and Campus Community

Year-End Report 2020-2021

Jordan Draper, Co-Chair; Jamal Johnson, Co-Chair

The Committee on Student and Campus Community (CSCC) has been meeting throughout the Spring semester to review and finalize several critical policies for our campus. This semester we completed and sent recommendations to Steering on the following policies: Social Media policy, Electronic Records Privacy and Access policy, and Safety of Minors policy. The Use of Campus Property policy has been completed and recommendations were sent to Steering during winter break. The Naming of Assets and Renaming of Streets policy tasked CSCC members with looking at ways to expand our physical diversity footprint on campus, and we are still working with leadership on moving recommendations from the committee forward. Finally, the Flexible Work Arrangement policy completed the governance process and a draft with recommendations was sent to Human Resources for final input prior to sending a complete recommendation to Steering.
