1. Review of 3/6/24 Minutes

- Approved

2. Designation proposals for review:

a. IDS 252 - Global (updated syllabus in proposal folder)

- Updated discussion questions and readings bring in more global voices, but unclear how engagement with texts is facilitated throughout the course
- CCC needs to see a proposed syllabus that fully incorporates all updates from the rationale document
- Voted to revise and resubmit

b. PSY 357 - Gender

- Current syllabi includes both old and new CC learning outcomes
- Course seems to be centering white masculinity over other forms
- Insufficient incorporation of intersectionality
- CCC will circle back to the faculty member to better understand the goals of the course

3. Discussion of College Core Course Approval webpage.
 - a. Review of revised webpage
 - b. Role of Course Approval forms (old and new)
 - Original approval form not necessary, modification form is submitted
 - c. Course approval form and department chair letter
 - Chair approval indicated via course modification form
